

OWNER'S MANUAL

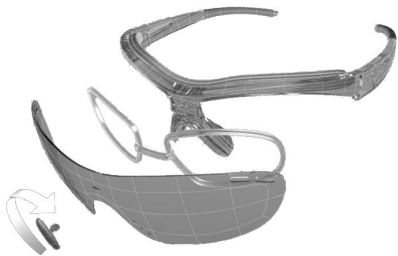

SZIOLS[®]
The serious sports glasses.[®]

Congratulations on your purchase of Sziols, The Serious Sports Glasses.

You are now the proud owner of world's finest performance eyewear. Your Sziols eyewear system is designed and manufactured to the highest standards to provide you many years of performance.

To ensure the highest level of customer satisfaction, please read the information contained in this Owner's Manual.

Please follow all instructions carefully to ensure your Sziols function properly and deliver the highest level of performance.

The Sziols System

1. DPX key – The patented Sziols DPX key allows you to easily change lenses without smudges or fingerprints. Simply twist the integrated DPX key, retract the lens, and then insert the new lens, locking it in with its own DPX key.

NOTE: Do Not Detach the DPX key from the lens.

4. Polycarbonate frame – Virtually indestructible frame fits comfortably for all activities.

5. Integrated Neoprene sweat band – Removable and washable sweat band easily snaps into place and can be removed just as easily.

6. Adjustable nose piece – To adjust remove nosepiece, then invert before replacing. Nose pad features an anti-slip design that is removable and reversible. Height and width of the pad can be adjusted. Nose pads also may be inserted individually to achieve a deeper fit.

3. Prescription lens – If you require vision correction, click your inner prescription lens into the available slot, then attach your lens with the DPX key.

2. Detachable lens – Each Sziols lens can be removed and replaced for bright and low light conditions or for specific activity needs. Store the unused lenses in their protective sleeve.

For best results, please clean lenses with the cleaning cloth that came with your pair of Sziols.

Do not use harsh chemicals to clean .

Product Disclaimer

By purchasing Sziols America products, you acknowledge and agree to the following disclaimer with respect to Sziols America products:

All Sziols lenses filter 100% of UVA, UVB, and UVC light and are tested to meet DIN EN 1836 standards. In order to insert prescription lenses, you must consult an eye care professional.

Sziols America, LLC, recommends that tinted lenses not be used for nighttime activities, including driving, or for direct viewing of the sun or artificial light sources of similar strength or potential harm. Sziols action red lenses are not for day or night driving or similar activities. Sziols eyewear is not recommended for industrial eye protection.

This eyewear has been tested and certified to "Impact Resistant" pursuant to the Sunglass Association of America Standard LT-1 and 21 CFR 801.410. (Inspection Certificate No. GA-970130A, Jan. 30, 2007) This eyewear has also been tested pursuant to ANSI Z80.1 standards. However, this eyewear will not protect the wearer from all injuries in the event of impact from exceedingly hard objects or if the lens is not properly secured to the frame. Neither the designer nor the manufacturer claims this eyewear will eliminate the possibility of injury from impact, including all serious injury from penetration of an object through the eyewear.

If any part of the eyewear is damaged, bent, cracked, missing, or scratched so that vision is impaired, do not continue to use the eyewear.

If the eyewear does not fit snugly or if the lens is missing or pops off of the frame, do not use the eyewear. Use product as designed. Do not try to artificially fit lenses into frames.
